

Once in an era, a force arrives that splits history into “before” and “after”.

Electricity → The Internet → The Smartphone → AI

Today that force is artificial intelligence.

NEONEXA

On the threshold of a new era, a company is born to lead the way.

The Developers and Founders

Professionals in their craft and the visionaries who created – and keep building – the products of **NEONEXA**. Every day the company is powered by:

Backend team

They build the brain and the core of every technical process. Two in-house platforms – Network and AI – created specifically for the ecosystem. Unique proprietary developments and solutions of the highest class.

Frontend team

They work on visual beauty and performance. Regular updates make the app more comfortable and more advanced with every release.

AI Architects

Every day they work on training AI Experts and developing proprietary mechanisms and technologies for the company. They built a unique mechanism for training and handling databases, and a multi-level personalization of the experts for every single user.

Artists

They bring beauty to our ecosystem and make the brand the most attractive and stylish one. All of the company's design and media materials are original, created by our own artists.

Support team

They provide fast, high-quality contact with the company – helping with your questions every day. They hold the highest response speed and quality in resolving your cases.

SMM team

Every day they cover the important news and events of the ecosystem. This is the direct voice of the company – a living link between us and you.

Roadmap (abridged)

Full version at tonmason.com |  Completed  In progress

A council of experts, always by your side

- ✦ **Deep expertise** in their niche
- 🎤 **A live voice**, not just text
- 🎯 The main goal is **a result**, not merely an answer
- 👤 **Maximum personalization** tailored to you
- 🕒 **Available 24/7**
- 💬 A simple, clear app in **messenger style**

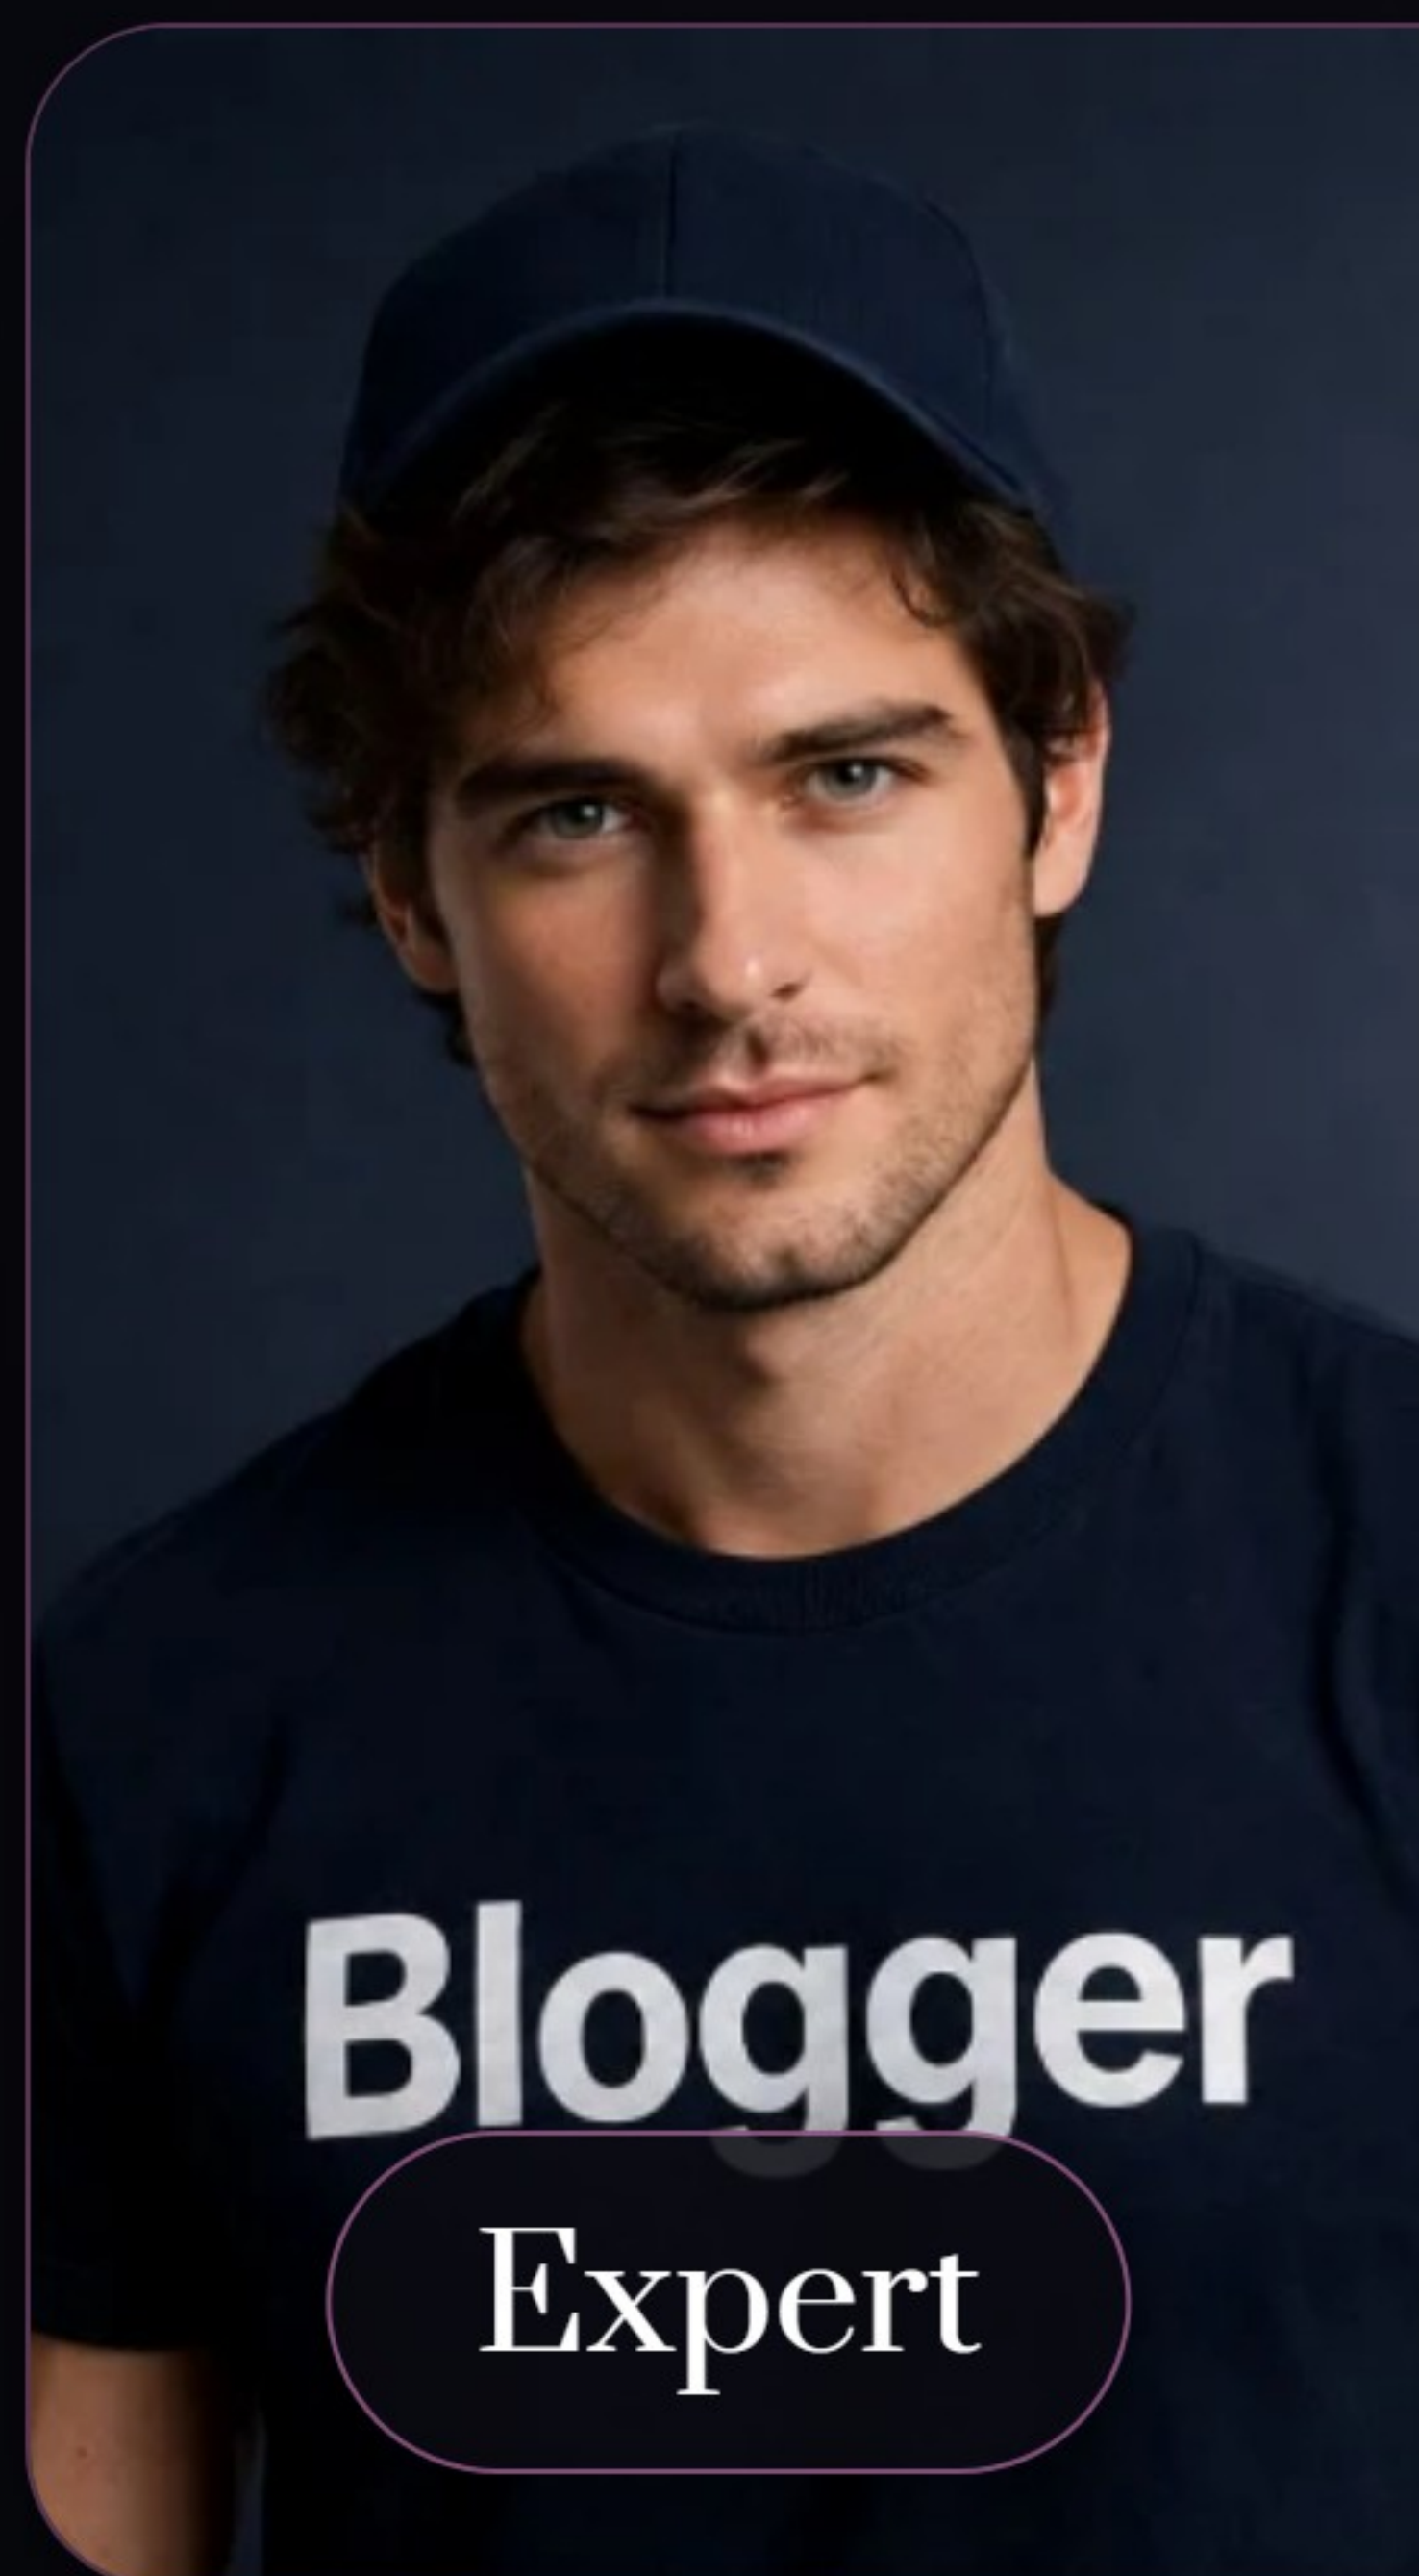

and many more

...

AI will not replace you. It will amplify you.

One person — stronger than a whole team was yesterday.

Nothing like it anywhere

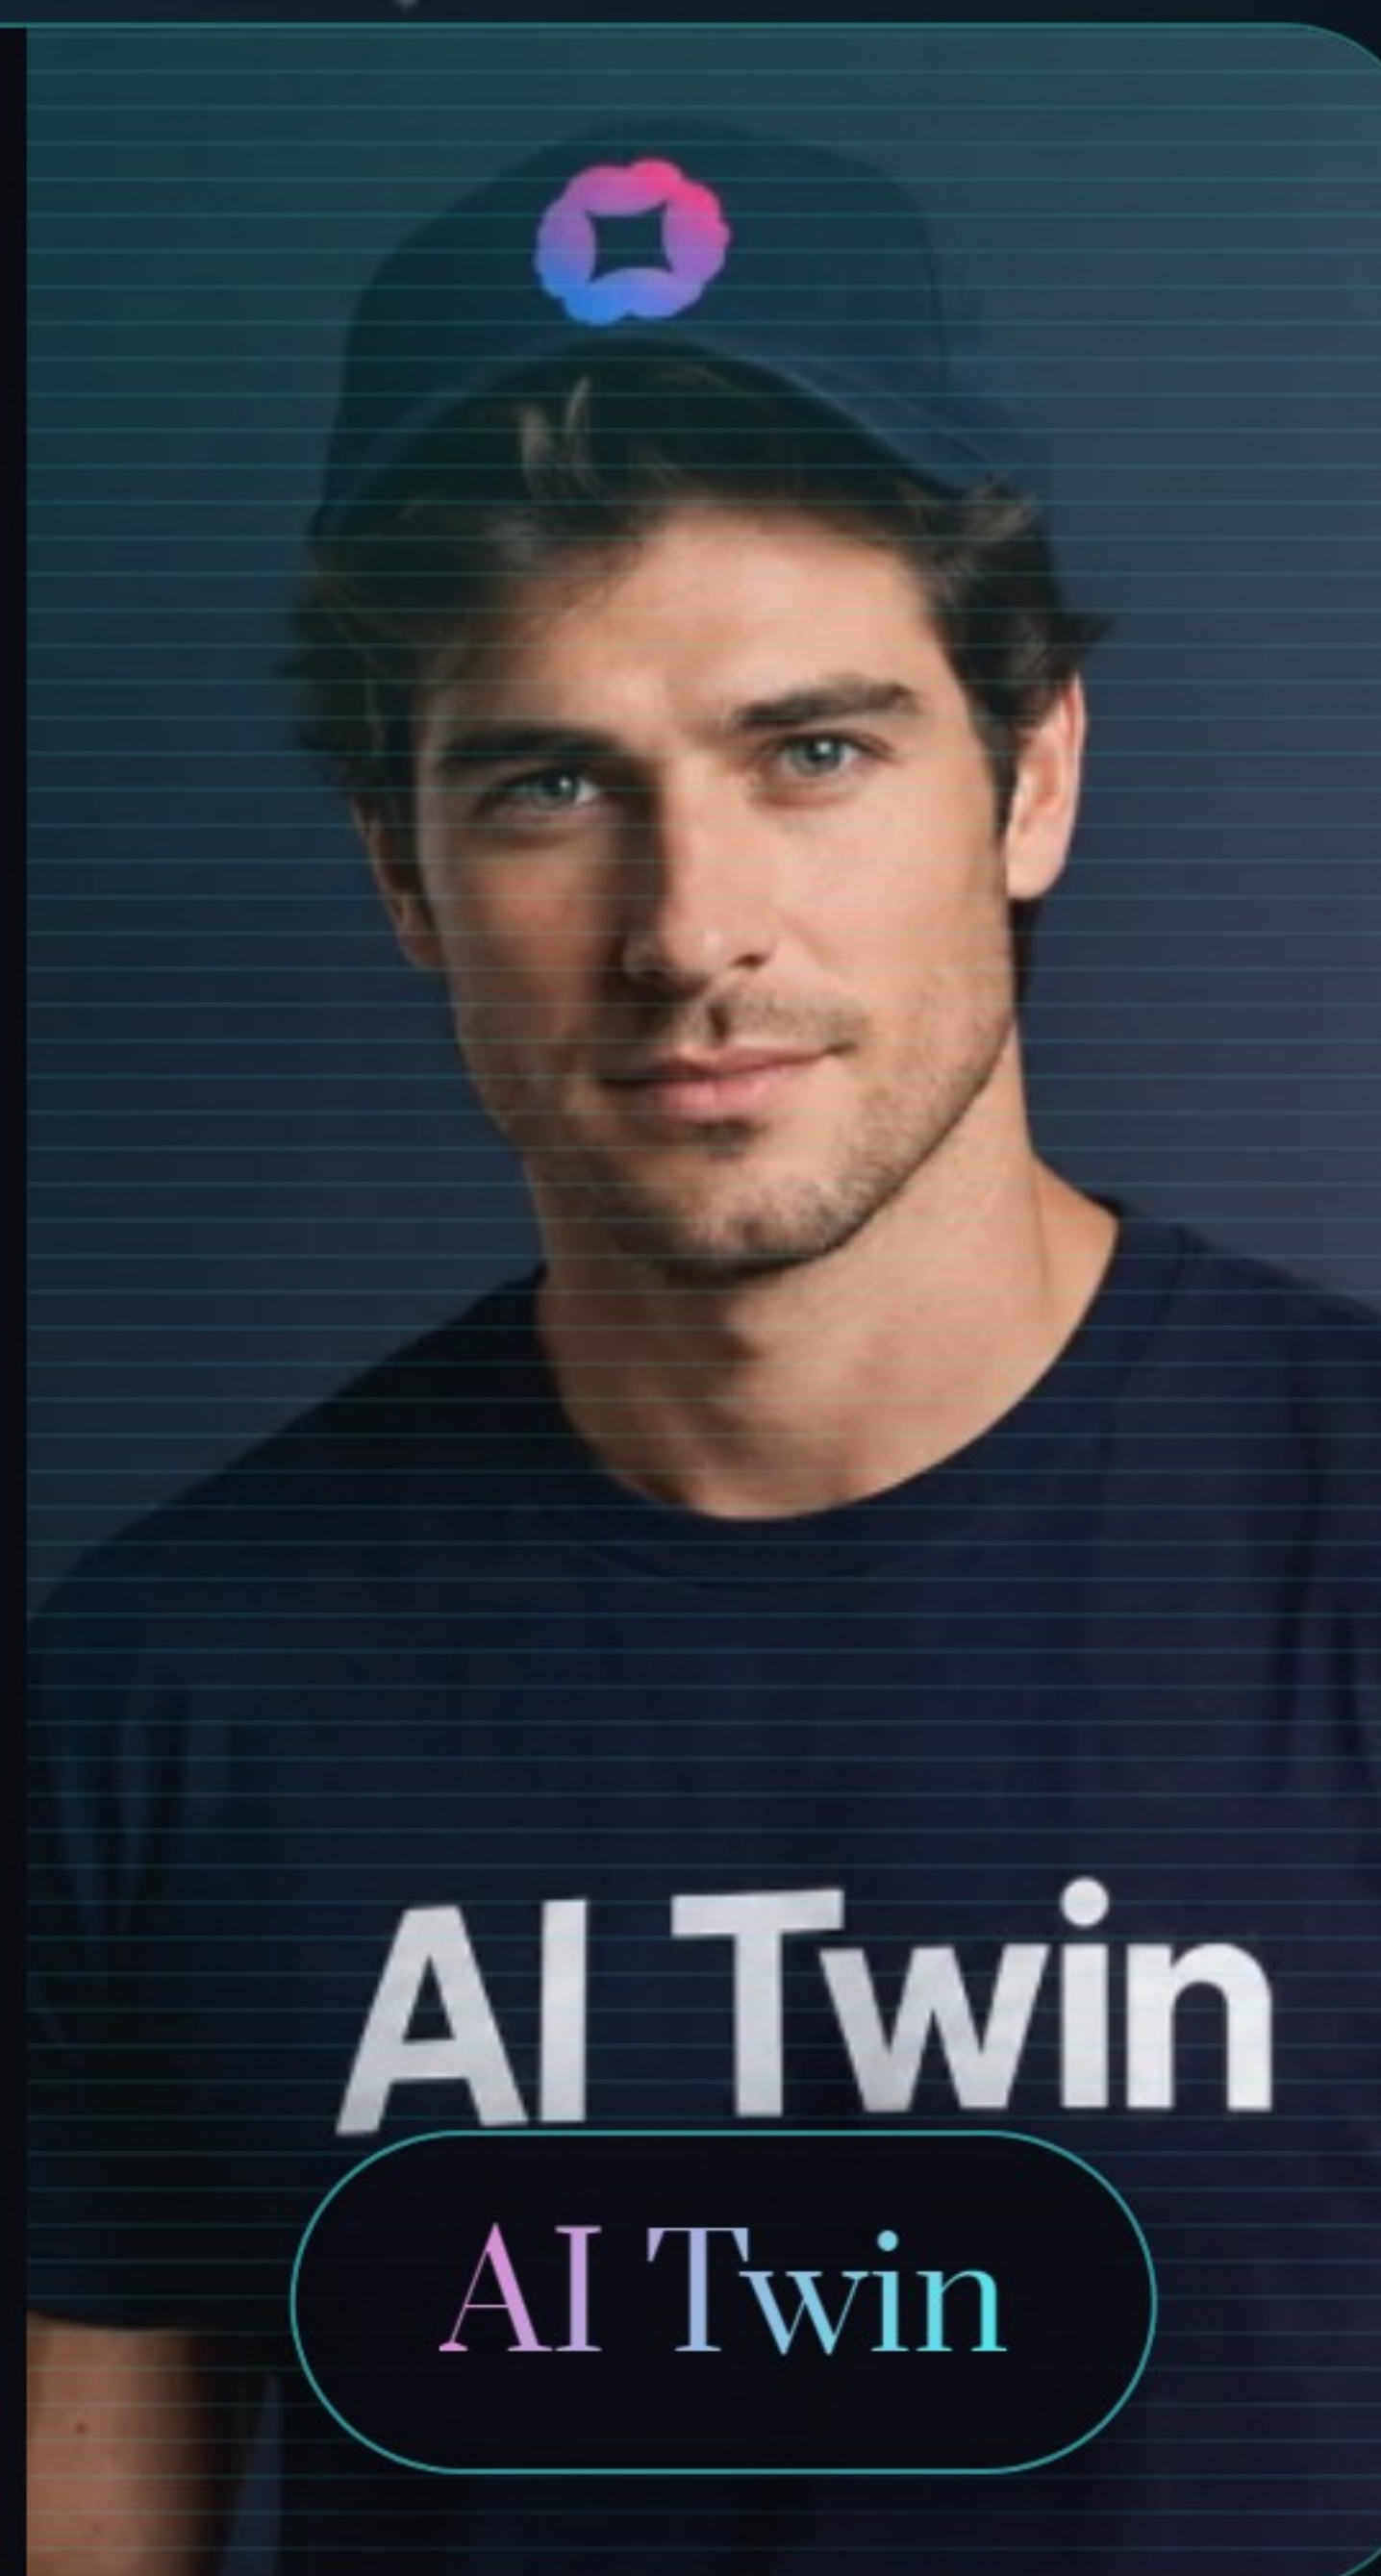

Blogger
Expert

What a human can do

- Limited by time · needs sleep
- One conversation at a time
- One or a few languages
- A professional in their field
- Cannot remember every detail about you

What an AI Twin can do

- Online 24/7
- Thousands of conversations at once
- All major world languages
- Expertise + knowledge of the world
- Remembers every important detail about each person

AI Twin
AI Twin

For example: a blogger creates their own **AI Twin**, which talks to the audience, having taken on their voice, their manner of speech and their expert knowledge.

Power — for everyone

A council of the finest minds, with no sleep and no weekends, used to be affordable only to corporations and celebrities.

Now it is **available to everyone** — by subscription.

Not for a single advisor — **for all of them at once**, any minute, 24/7.

ALL AI EXPERTS — ONE SUBSCRIPTION

\$33 / month

For a partner

For a client — **\$39**

- ✓ All AI Experts included
- ✓ Voice mode — speak out loud
