

Your place in **the new digital economy**

The NEONEXA compensation plan is approved and unchanging — the foundation people build on for the long term.

Technology and AI have already become a way of life. **The same day as always — but now it also works for you.** Here you are paid not for joining, but for the **result**, which AI delivers every day — and **eight sources of rewards** work in sync, reinforcing one another.

1 Architects Bonus

No matter which franchise a new partner activates — what matters is that 100% of the funds stay within the community and instantly reach partners' wallets by the simple, clear principle of the “Architects Lodge.” The funds are ready to use right away.

2 Client Bonus

Product prices for partners come with a discount of up to 30%. Your direct client uses the product, and the difference between the client and partner price goes into your reward.

3 Level Bonus

An exclusive royalty bonus on the turnover of your 5 levels.

4 Leadership Bonus

A percentage of the turnover of your entire network to full depth — accounting for the difference between ranks.

5 Matching Bonus

A reward from the rewards of your partners: you are directly interested in the success of those you invited.

6 Fast Start Bonus

Reach a new level and confirm it just once — and you receive a separate reward.

7 Car Bonus

From DIAMOND rank, the company pays an additional car bonus (the car must be branded — check with the company).

8 Travel Bonus

Twice a year — a reward of experiences, not only money.

- **Bonuses are available to partners with an active MasterKey subscription.**

Take a look at your ordinary day: a smartphone in your hand, the internet, apps, AI that already answers your questions. You are already doing this anyway — **every day, changing nothing.**

The whole plan is built around one idea: **not to change your habits — but to let them work for you.** The same phone, apps and AI — only now they can become an additional source of reward for your family. No salesperson role, no “promoting” or persuading — the system is designed so that it all flows **naturally**, in the rhythm of your life.

AND HERE IS WHAT TO UNDERSTAND RIGHT AWAY

The question is not whether you will be here. **AI is not the future, but the present.** The only question is in what role.

Client — use it and be satisfied. That is a good path, too.

Partner — take your share of what is going to happen anyway.

The place is yours either way. All that is left is to choose the role.

Fair and transparent

Clear rules and honest payouts — you always see what for and how much.

A place is ready for everyone

Artificial Intelligence is already here — which role you step into is up to **you.**

8 ways to be rewarded at once

- 1

Architects Bonus
